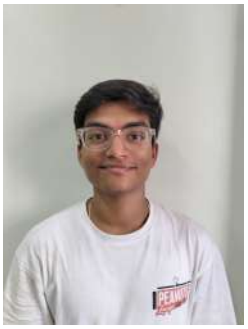
Technical Founder | Full-Stack Web Developer | Embedded & IoT



Full-Stack developer and technical founder with hands-on experience building production-grade web systems (Next.js, Node.js, PostgreSQL) and embedded IoT products. Award-winning startup founder (MSSU i-SPARK) with a proven track record of shipping backend APIs, real-time systems, and consumer hardware prototypes.

Technical Skills

Languages & Frameworks: JavaScript/TypeScript (Next.js, React, Node.js), Python, Java (Android), C/C++, CircuitPython, HTML, CSS

Databases & APIs: PostgreSQL, MongoDB, Supabase, MySQL, REST APIs, WebSockets, Prisma ORM

Embedded & IoT: Raspberry Pi Pico, ESP32, Sensor Integration, USB HID Protocol, Hardware Debugging, Arduino IDE

DevOps & Tools: Git/GitHub, Docker, CI/CD, Linux, Figma, Google Apps Script, Android Studio

AI & Automation: Prompt Engineering, Agentic AI, N8N, AI-Assisted Dev (Antigravity, Claude Code, Copilot)

Softwares: MS Office, G suit, Photoshop, Premium pro, Canva, Vercel, Cloudflare, etc

Experience

Freelance Full Stack Web Developer Feb. 2026 – Apr. 2026
A3Distributor *Remote*

- Built a full-stack platform (a3distributor.com) using Next.js, Node.js, and Supabase/PostgreSQL with REST APIs for invoice generation, product management, and order tracking; designed normalized DB schema and SSR for performance.

Technical Head / Co-Founder Dec. 2024 – Apr. 2026
Austrange Solutions Pvt Ltd *Mumbai, India*

- Architected IoT hardware solutions including a smart assistive device for the visually impaired with real-time obstacle detection; deployed Node.js backend for device data ingestion and processing.
- Designed embedded firmware (C/C++, MicroPython) for ESP32 wireless sensor integration; reduced prototype iteration time by 40% via 3D printing workflows.

Web Developer Jan. 2023 – Jan. 2024
Vishnushakti Foundation – Non-Profit Organization *Mumbai, India*

- Built a responsive website (HTML5, JS, PHP, MySQL) increasing user engagement by 35%; automated internal workflows via Google Apps Script, eliminating 80% of manual data entry.

Content Creator / Channel Owner Mar. 2020 – Mar. 2021
IzooG Gaming (now IzooG10) *Online*

- Produced and edited gaming videos, tutorials, and tips; handled end-to-end content production including video editing, thumbnail design, and basic motion graphics.
- Grew a small creator audience, collaborated with other creators, and developed skills in community outreach, analytics, and creator tools.

Projects

Business ERP System | *Next.js, Node.js, PostgreSQL, Supabase, Zoho API* 2026

- Built a full-stack ERP for employee and client operations — attendance tracking, payroll engine (automatically computes salary based on working days and leaves), KPI dashboard with performance scores, and client payment tracker with invoice history and revenue reporting.
- Integrated Zoho CRM and Zoho Books APIs into Supabase PostgreSQL; built modular Node.js REST APIs with role-based access control (Admin / Manager / Employee).

Macro Keyboard – IoT Hardware Device *(Final-Year Project: 150/150)* GitHub: macropad3x3oled

- Engineered a Raspberry Pi Pico-based macro keyboard (CircuitPython, USB HID) with Python/Tkinter desktop configurator and 3D-printed enclosure; won 3rd prize at VSIT inter-college IoT competition.

GitoPrompt – AI Developer Tool | *React, Node.js, Supabase* GitHub: gitoprompt

- Built a React/Vite/Supabase web app with Node.js backend that analyzes public GitHub repositories and generates structured AI prompts for reverse engineering and documentation.

QR Code Scanner & Generator – Android App GitHub: MyQRScanner

- Developed a native Android app using ZXing for real-time QR detection and generation.

Smart Blind Stick | *Embedded, ESP32, C/C++* Austrange Solutions Pvt Ltd

- Built a hand-wired working prototype of a smart assistive stick with real-time obstacle detection and haptic/sonic feedback; supervised 3D modelling and PCB design as Technical Head/CTO during prototyping and iteration cycles.
- Implemented firmware on ESP32 (C/C++, MicroPython) and a Node.js backend for telemetry and device management.

Arcion.in – E-commerce Platform | *Next.js, Node.js, PostgreSQL* 2026

- Designed and built arcion.in, an e-commerce platform for 3D-printed products and gifts with an admin panel, product management, orders, and payments; aimed to replicate core Shopify-like workflows for SMB sellers.
- Implemented product catalog, shopping cart, order management, and admin dashboards with role-based permissions and analytics.

Job Scraper – Python CLI | *Python, Playwright, Scraping, CLI* 2026

- A powerful Python CLI tool scraping job listings from LinkedIn, Indeed, Naukri, Google Jobs, Glassdoor, and Internshala with smart location resolution and fuzzy deduplication.
- Features: multi-platform scraping, HQ/location cross-referencing (Wikipedia, Wikidata, Google), fuzzy duplicate removal, CSV/JSON export, company directory generation, proxy support and Playwright integration for dynamic sites.

Achievements & Awards

MSSU i-SPARK Foundation – State-Level Startup Competition Winner – Rs. 3 Lakhs Prize

- Won 1st place and Rs. 3 Lakhs seed funding for an innovative hardware-software startup concept.

VSIT IoT/Embedded Systems Competition & Glimpses by CIMR & Creative Clash 1.0 3rd, 1st, 1st Place

- 3rd prize for Macro Keyboard at VSIT; 1st place at both Glimpses by CIMR and Creative Clash 1.0 (IES College) for technical innovation and entrepreneurship — won on the same day across two colleges.

Vivekanand Education Society (VES) – The Startup Challenge Best Stall; 3rd in Innovation to Incubate

- Awarded Best Stall in Prototype Arena and 3rd place in "Innovation to Incubate" category at VES Startup Challenge for a hardware-software prototype and pitch.

Research Paper Submission ICFA-FCP 2025

- Submitted a research paper to the International Conference on Forensic Accounting and Financial Crime Prevention (ICFA-FCP 2025) organized by Chetana H.S. College and Institute of Forensic Science.

Certificates

3D Printing Course – IDEMI FDM

SLS; Best student of the batch

- Completed a 3-month hands-on course at The Institute for Design of Electrical Measuring Instruments (IDEMI) covering FDM and SLS 3D printing workflows; recognized as Best Student of the batch.

Academic Excellence Certificates Chetana H.S. College

- Received certificates of Academic Excellence for TY BScIT in Project Implementation and Enterprise Networking Practicals.

Education

Chetana Hazarimal Somani College of Commerce and Economics 2022 – 2025

Bachelor of Science in Information Technology (BScIT) *Mumbai, India*

- **CGPA:** 9.25/10 **Overall Percentage:** 76.95%
